Page 1: 2020 Moreland Council Candidate climate survey

**Q1**

Candidate Name

Margee Glover

---

**Q2**

North East Ward

Contesting Which Moreland Ward?

---

**Q3**

Reason Party

Are you a candidate for a political party? Which Party?  
Or are you standing as an Independent candidate?

---

**Q4**

If you are receiving campaign funding for this election, who are you receiving funding from? (list all or state 'None')

None at this stage

---

**Q5**

North East Ward

Connections to Moreland Wards. I am a resident in:

---

**Q6**

What are your other connections to Moreland wards

Other (please specify) If you have other connections to  
Moreland, please state the ward(s) and the connection(s)  
briefly in 100 characters.

I have live in Coburg West for over 20 years and been involved in School and arts groups.

---

## Q7

Triple bottom line accounting brings to account three domains that we need for a good life. They are economic, environmental and social which includes health. Do you commit as a Councillor for Council to use triple bottom line accounting on all Council infrastructure projects and will you try to ensure that climate emergency is embedded in every Manager's performance plan?

(no label)

**Agree with reservations**

---

## Q8

Transport: Upfield Rail Upgrade - Problems with parking and traffic congestion, capacity issues of public transport (once the pandemic passes) necessitate solutions for upgrading the Upfield Line. According to Infrastructure Australia, the northern region Transport Corridor will reach and exceed capacity in the next decade. Will you support duplication and extension of the Upfield rail line to Craigieburn and Wallan for provision of a more reliable and frequent rail service catering for the growing population in Moreland and residents in new growth suburbs further north?

(no label)

**Strongly Agree**

---

## Q9

Transport: Tram Network Extension: As a Councillor will you support ongoing advocacy for the Victorian State Government to extend the No 58 West Coburg Tram along Derby street in Pascoe Vale, and No 19 North Coburg tram routes further north along Sydney Road to Campbellfield?

(no label)

**Strongly Agree**

---

## Q10

Transport: Mode shift - What actions will you be pushing for to facilitate a mode shift to more sustainable modes of transport in Moreland as part of, or beyond, Moreland Integrated Transport Strategy (MITS), including changes to parking restrictions, increasing public transport advocacy, cycling and walking infrastructure?

Undertake further parking survey and modelling work in and around Activity Centres and Neighbourhood Centres to develop a comprehensive car parking plan to fully understand the impacts of revised parking requirements and inform a future planning scheme amendment. Many people within our community cycled to work or school, or recreationally, including me, and it is important to continue to invest in safe, direct and continuous bike routes, separate from other forms of traffic but have inclusive transport policies.

---

## Q11

Heat Vulnerability: Large sections of Moreland's north are at the extreme end of the Heat Vulnerability Index, meaning residents are very susceptible to global warming. What will you do to address this beyond existing policies, including Moreland Urban Heat Island Effect Action Plan (Word Doc 48MB), Moreland Urban Forest Strategy 2017-2017 (PDF 9MB), Cooling the Upfield Corridor Action Plan?

In tackling the climate emergency I would like to ensure council is proactive and innovative in this space including the creation of more public parkland and wildlife corridors to support wildlife, while also creating community spaces, accessible for all abilities and respond to the effects of global warming.

---

## **Q12**

Waste Management. Moreland aims to be a leading council in sustainable waste management, yet its rate of diverting waste to organics and recycling sits just above the state average. What will you do to help Moreland in the rollout of the Food and Garden Organics Collection Service, and achieve Moreland's 2030 zero waste to landfill target as part of Zero Carbon in the Planning Scheme – ESD Policy v2.0?

Ensure there is sufficient public education to make this rollout work. Other proposed incentives are a recycling audit to include soft plastics and food delivery waste; a push for more public bins and recycling stations; and a proposal to re-purpose materials like old tyres to create sustainable, environmental urban paving.

---

## **Q13**

Energy Efficiency and Renewables. Moreland has a goal of “Efficient and 100% renewably powered energy”. Yet Moreland has one of Victoria’s lowest uptake of solar PV. How can Moreland “walk the talk” on renewable energy and meet the community goals set in the Zero Carbon Moreland – Climate Emergency Action Plan 2020/21 – 2024/25?

We would propose Moreland residents having access to clean energy through a council-led Solar Panel Scheme. This scheme would see residential households provided access to solar power energy through a council initiative. Moreland Council currently offers plenty of avenues for advice and quotes, they only offer payment schemes for businesses and organisations. Paying for residents solar panels, and then having them pay it off through rate increases without interest would be a good next step.

---

## **Q14**

Pollution and litter: How will you educate and incentivise business in industrial zones (especially in the North East Ward) to avoid pollution and litter from entering our drains and our creek systems?

Firstly work with the EPA on improved outcomes to avoid polluting and secondly ban tonic waste dumps and storage in Moreland.

---

## **Q15**

Supporting business and the environment as part of Covid RecoveryWhat actions will you take to help Council promote environmentally sustainable jobs as part of a Covid recovery such as by possible development of large abandoned sites for a sustainability hub (such as former Kangan TAFE automotive campus)? How else will you advocate for supporting small business Covid recovery that includes environmental co-benefits?

We believe our solar panel scheme will create jobs in Moreland. I would also call for a sustainability summit to explore and frame a feasibility study on creating a sustainability hub.

---

## **Q16**

Food SecurityHow would you address food security in Moreland beyond the existing Moreland Food System Strategy? (including as a part of the clean Covid recovery)?

Now more than ever food security is important. I would support accelerating the outcomes from the findings of the Moreland Food System Strategy.

---

**Q17**

**70**

Food Security. The IPCC Special Report on Land and Climate Change Summary for Policy makers (2020) articulates major emissions reduction can be achieved from adopting a primarily plant based diet (B6.2). Will you advocate for public health policies that promote proper nutrition and dietary change by Moreland residents as per the IPCC (C2.4)?

---

**Q18**

Buildings, Biodiversity and Urban cooling: What would you do as a Councillor to ensure that with new building developments, Moreland has sufficient vegetation cover to contribute to biodiversity outcomes and urban cooling beyond existing policies in the Urban Forest Strategy, Moreland Nature Plan, and the Achieving Zero Carbon in the Planning Scheme – ESD Policy v2.0 project?

Seek that new developments are committing to the installation of solar photovoltaic systems and/or address the urban heat island effect.

---

**Q19**

Cement Emissions. Use of Portland Cement contributes to 8% of global emissions. Alternative low emissions/zero emission cement products are available at reasonably competitive rates. Will you commit to amending Moreland Council Procurement policy sustainability filter to purchase low carbon/zero emissions cement/concrete products?

(no label)

**Undecided**

---

**Q20**

Climate Citizen Assemblies: Under the new Local Government Act 2020 (community engagement policy), all councils in Victoria are required to use deliberative practices for the development of their Community Vision, Council Plan, Financial Plan and Asset Plan, at the bare minimum. The gold standard of this kind of democratic, deliberative practice is a Citizens' Assembly. So, will you support such a democratic framework for Council's climate emergency response by establishing a Citizens' Assembly?

(no label)

**Strongly Agree**

---

**Q21**

What are your top four priorities for the Council Plan to be formulated for 2021-2025.

Priority 1

**Continue to invest in safe, direct and continuous bike routes, separate from other forms of traffic**

Priority 2

**Ensure council is proactive and innovative in this space including the creation of more public parkland and wildlife corridors to support wildlife, while also creating community spaces, accessible for all abilities**

Priority 3

**A targeted approach to gender equity issues and safety within our community, particularly for women.**

Priority 4

**Increasing solar panel rollout for residential housing and new developments**

**Q22**

Respondent skipped this question

Do you have any other comments on Council Climate Leadership and Advocacy (include any actions you have taken on this)? Do you have any supplementary comments relating to the questions above, comments on other issues related to climate change not covered, or comments on climate change generally?

---
