Page 1: 2020 Moreland Council Candidate climate survey

### Q1

Candidate Name

Annalivia Carli Hannan

---

### Q2

North East Ward

Contesting Which Moreland Ward?

---

### Q3

Labor

Are you a candidate for a political party? Which Party?  
Or are you standing as an Independent candidate?

---

### Q4

If you are receiving campaign funding for this election, who are you receiving funding from? (list all or state 'None')

Donations from friends and family, predominantly self funded.

---

### Q5

North East Ward

Connections to Moreland Wards. I am a resident in:

---

### Q6

What are your other connections to Moreland wards

I am a recontesting Councillor

North East Ward

I am employed in

North East Ward

---

### Q7

Triple bottom line accounting brings to account three domains that we need for a good life. They are economic, environmental and social which includes health. Do you commit as a Councillor for Council to use triple bottom line accounting on all Council infrastructure projects and will you try to ensure that climate emergency is embedded in every Manager's performance plan?

(no label)

Agree Strongly

---

## Q8

Transport: Upfield Rail Upgrade - Problems with parking and traffic congestion, capacity issues of public transport (once the pandemic passes) necessitate solutions for upgrading the Upfield Line. According to Infrastructure Australia, the northern region Transport Corridor will reach and exceed capacity in the next decade. Will you support duplication and extension of the Upfield rail line to Craigieburn and Wallan for provision of a more reliable and frequent rail service catering for the growing population in Moreland and residents in new growth suburbs further north?

(no label)

**Strongly Agree**

---

## Q9

Transport: Tram Network Extension: As a Councillor will you support ongoing advocacy for the Victorian State Government to extend the No 58 West Coburg Tram along Derby street in Pascoe Vale, and No 19 North Coburg tram routes further north along Sydney Road to Campbellfield?

(no label)

**Strongly Agree**

---

## Q10

Transport: Mode shift - What actions will you be pushing for to facilitate a mode shift to more sustainable modes of transport in Moreland as part of, or beyond, Moreland Integrated Transport Strategy (MITS), including changes to parking restrictions, increasing public transport advocacy, cycling and walking infrastructure?

I am very supportive of increased walking infrastructure and improving pedestrian safety.

Cyclists should be encouraged and redirected to safer routes with less interaction with cars, trams and other hazards, wherever possible. Council should invest to facilitate the development of safer cycling routes for the community.

I am opposed to the MITS approach to car parking and will advocate for it to be reversed. I oppose the two hour parking restrictions and oppose a blanket approach to zero carparking developments which have proven to have failed time and again over the last term of Council.

I believe we must retain carparking, especially in and around public transport infrastructure like our train stations.

---

## Q11

Heat Vulnerability: Large sections of Moreland's north are at the extreme end of the Heat Vulnerability Index, meaning residents are very susceptible to global warming. What will you do to address this beyond existing policies, including Moreland Urban Heat Island Effect Action Plan (Word Doc 48MB), Moreland Urban Forest Strategy 2017-2017 (PDF 9MB), Cooling the Upfield Corridor Action Plan?

Council should look to provide more community gardens and invest in open space, greening opportunities and our creek and waterways to help reduce the urban heat island effect.

---

## Q12

Waste Management. Moreland aims to be a leading council in sustainable waste management, yet its rate of diverting waste to organics and recycling sits just above the state average. What will you do to help Moreland in the rollout of the Food and Garden Organics Collection Service, and achieve Moreland's 2030 zero waste to landfill target as part of Zero Carbon in the Planning Scheme – ESD Policy v2.0?

I support the weekly FOGO collection and strategy. I however, do not support a reduction in collection for garbage and recycling from weekly to fortnightly. This will hurt many families in Moreland and is a punitive approach to try to solve a serious problem. It will lead to increased dumping of rubbish in our streets and bin contamination as people attempt to cope with the reduced service.

---

### Q13

Energy Efficiency and Renewables. Moreland has a goal of “Efficient and 100% renewably powered energy”. Yet Moreland has one of Victoria’s lowest uptake of solar PV. How can Moreland “walk the talk” on renewable energy and meet the community goals set in the Zero Carbon Moreland – Climate Emergency Action Plan 2020/21 – 2024/25?

I support providing concession card holders and pensioners with solar panel rebate/grant opportunities to help drive uptake of Solar in Moreland.

---

### Q14

Pollution and litter: How will you educate and incentivise business in industrial zones (especially in the North East Ward) to avoid pollution and litter from entering our drains and our creek systems?

I support ensuring that businesses abide by environmental laws and encouraged and education about the correct disposal of pollutants.

---

### Q15

Supporting business and the environment as part of Covid RecoveryWhat actions will you take to help Council promote environmentally sustainable jobs as part of a Covid recovery such as by possible development of large abandoned sites for a sustainability hub (such as former Kangan TAFE automotive campus)? How else will you advocate for supporting small business Covid recovery that includes environmental co-benefits?

I support employment opportunities in Moreland and sustainable jobs, and would be happy to see a environmental hub. However I do not believe it is Council's purpose to bankroll/underwrite these sorts of projects beyond the involvement of the economic development policy team.

---

### Q16

Food SecurityHow would you address food security in Moreland beyond the existing Moreland Food System Strategy? (including as a part of the clean Covid recovery)?

I would like to see the Food Hub for the North realised during my coming term on Council.

---

### Q17

**Respondent skipped this question**

Food Security. The IPCC Special Report on Land and Climate Change Summary for Policy makers (2020) articulates major emissions reduction can be achieved from adopting a primarily plant based diet (B6.2). Will you advocate for public health policies that promote proper nutrition and dietary change by Moreland residents as per the IPCC (C2.4)?

---

### Q18

Buildings, Biodiversity and Urban cooling: What would you do as a Councillor to ensure that with new building developments, Moreland has sufficient vegetation cover to contribute to biodiversity outcomes and urban cooling beyond existing policies in the Urban Forest Strategy, Moreland Nature Plan, and the Achieving Zero Carbon in the Planning Scheme – ESD Policy v2.0 project?

I believe we should be planting as many trees as possible with trees with strong canopy the priority. I also beleive we should encourage developments with as much green space and planting as possible, including rooftop gardens for larger scale apartment projects.

## Q19

Cement Emissions. Use of Portland Cement contributes to 8% of global emissions. Alternative low emissions/zero emission cement products are available at reasonably competitive rates. Will you commit to amending Moreland Council Procurement policy sustainability filter to purchase low carbon/zero emissions cement/concrete products?

(no label)

**Undecided**

---

## Q20

Climate Citizen Assemblies: Under the new Local Government Act 2020 (community engagement policy), all councils in Victoria are required to use deliberative practices for the development of their Community Vision, Council Plan, Financial Plan and Asset Plan, at the bare minimum. The gold standard of this kind of democratic, deliberative practice is a Citizens' Assembly. So, will you support such a democratic framework for Council's climate emergency response by establishing a Citizens' Assembly?

(no label)

**Undecided**

---

## Q21

What are your top four priorities for the Council Plan to be formulated for 2021-2025.

Priority 1

**Mutton Reserve redevelopment that includes a food hub and neighbourhood co-operative**

Priority 2

**Redevelopment of Central Coburg with new employment opportunities and affordable housing**

Priority 3

**Continue to upgrade community infrastructure, including kindergarten and childcare**

Priority 4

**Upgrade pools, gyms, sporting facilities to cater to the increased demand for children and women's sport**

---

## Q22

**Respondent skipped this question**

Do you have any other comments on Council Climate Leadership and Advocacy (include any actions you have taken on this)? Do you have any supplementary comments relating to the questions above, comments on other issues related to climate change not covered, or comments on climate change generally?

---
